Description :

PDF-2a7a3 | William J. Lines traces Australia's history from the continent's geological origins, natural development, and earliest native cultures to its present-day state of population and economic overgrowth at the expense of the fragile environmental balance. In particular, Lines examines the period between Australia's British colonization and the present, illuminating a path of environmental destruction f... *Taming the Great South Land: A History of the Conquest of Nature in Australia*
